THE SOLDIER AWAIT THE ANSWER

The citizens of Belleville have an opportunity of showing in a tr gible way their appreciation of the service and sacrifice of the sold boys who faced suffering and death that our peace, prosperity and co fort might not be wrecked by tife curse of Hun world domination.

t aught not be wrecked by tlff curse of Hun world domination. The proposed soldiers' Memorial Home will express in a practical yeal appreciation. The City Council has voted a grant of ten thousand dollars toward The City Council has voted a grant of ten thousand dollars toward Belleville and Hastings Soldiers' Memorial Home, and it only re-tink for the electros to railfy the action of the Council and vote for the time for the electros to railfy the action of the Council and vote for the memory of the council and the council and

mains for the efectors to rathly the action of the Council and vote for the by-law at the musippal election.

There is no division of opinion as the the solders being described recognition and their gallant decds commemorated. In all parts of Can-sala arrangements are being made for soldiers' memorials. Gould there be any better memorial than a building which would serve as a club and es any certer memorant man a duluting winch would serve as a club and sumprary home for returned soldlers, where their service records and ripolates and flags could be housed—a temple personilying freedom and be price paid for victory over the monstrous memore of Hun Kultur.

There is surely no danger of the soldlers' by-haw being defeated, but there may be misunderstandings, and it is decisible that every ratepayer

ise his or her franchise with a full knowledge of the n

exercise his or her franchies with a full knowledge of the proposition. The Soldiers' Memorial Home will geree Belleville and district and many soldiers will be directly herefited and helpful during the difficult in the soldiers' better the soldiers' better the soldiers' better for a civilian. It is an automal duty to assist the good soldier to become a good citizen and the Soldiers' heremail Home well managed and operated would be a powerful factor in helpful the returned soldier back to the duties and responsibilities of civil life.

A Board of Trustees will work out the details of the Home ough this Board the ratepayers will have a voice in the manag

operation of the Home along the best lines.

To vote against the by-law would be a slag at the soldiers who have so much for us and would indicate that appreciation ceased whe

done is much for us and would not not the cheering died out.

It will serve so good posses to suggest at this stage other for that a memorial might take. The present proposition covers everythin needful and is elastic enough to be moulded into the best form possible to the cheering the control of the cheering the ch

m the many suggestions which will be made later.

The soldier boys are worthy of the best we can do for them anian for us to be worthy of them.

Work and vote for the by-law and Belleville citizens will

A FREE RAY BRIDGE

One of the most will questione infecting the progress and proposition of Belleville is the necessity for a free bridge read reading to the Professe Edward County. The tell bridge was always it handing to Belleville in the necessity for a free bridge read easy; a bridge to belleville and is a rolle of a dead past which has no place in the progressity will be greatered to be the first was consensed, with the permission of par liament, by nearly fifty per cent, the situation becomes that much worse. Bellare Briestel.

The party fitty per cent, the shuntion becomes of common of a pure bolished between the shuntion becomes the shuntion becomes the shuntion becomes the shuntion and speed in Belleville are now finding their way to Piction and Tereston and speed ling money there which would otherwise be appear in Belleville, and the Reager their trade is diverted from Belleville the hardwe will be to get them lands. Consequently a free Buy bridge at the earliest date possible as of your largest probability to belleville.

All for One—One for All. To coustiess one of Setteville are a unit in demanding a free bridge, and every dollar jeeping in the business places of this city not only helps the business one in themselves but every man working for them, and inci-dentally every citients for all are directly and indirectly affected by the general prosperity. Cheaper Market Priess.

The high tolls are reflected in high prices on Belleville market and this directly affects every wage-surrer of Belleville and every citizen who patronises the market. There can be no doubt that a free bridge would

patronases the market. I nere can be no doubt that a tree bridge woult result in a larger market and a chesper market, consequently every citizen should be in favor of a bridge free of tolk.

Golden Opportunity Lost.

There was a golden opportunity last year to settle the bridge question for all time and Mayor Platt, the City Council and the Board of the Market Platt, the City Council and the Board of the Market Platt, the City Council and the Board of the Market Platt, the City Council and the Board of the Market Platt, the City Council and the Board of the Market Platt, the City Council and the Board of the Market Platt, the City Council and the Board of the Market Platt. tion for all time and Mayor Platt, the City Council and the Board is Trade took the queeting on vygorously a first and through the acvisance of Mr. J. W. Johnson, legislative member for West Hastings, secured a promise from the provincial government to contribute forty per cent, of the purchase price and also forty per cent of the cost of maintenance. The city of Beleville and Prince Education county were by this arrangement relieved of a large just of the financial burden entailed in the purchase of the bridge. The City Council went to fine as to make an offer of Sogono for the bridge and the matter resolved itself into one of negotiations be-yowen the City of Beleville, representatives of Prince Edward County countries. The countries of the contribute of the competition of the capter was secured to make a valuation of the include the valuation. City Council paid a proportion of his account for making the valuation which was somewhat in excess of the price originally offered by the City Council. According to the valuator's figures as finally adjusted the city of Belleville world have to pay about \$2,500 in excess of the price of fered by the City Council, which by all rules of business surely was not

red by the cuty Council, when no yattrunes to unusures surrey we man to the proper they were willing to partiage.

Then the matter dropped and meeting after about 19 partiage.

Then the matter dropped and meeting after the bridge purchase to the bridge purchase the council passed without any reference being made to the bridge purchase toget to pass the accounts' incurred in the negotiations including Sysonial to Mr. Clarkson, of Toronto, engaged to place a valuation to the bridge property.

Could Not Wake 'Em.

The Board of Tride tried repetately to get the City Council to take action on the bridge question, and Mayor Platt was requested to name a committee to act with a committee of the Board of Trude, that all in vain, with the result that an increased schedule of tolls went into effect without any further move being made by Mayor Platt to renew the effort for a free bridge.

All this has been published in the press before, but it is well at thi time to remind the electors of what happened to the most omportant question before the Mayor and Council last year.

n before the Mayor and Council last year.

Mayor Platt's Drop,

The Board of Trade finally asked Mayor Platt for an explanation of civic inaction upon the bridge purchase project, and at a regular setting of the Board the Mayor made the remarkable statement that the settion had been definitely dropped and intimated that he was not in

Mikel the Best Candidate,
We believe that Mayor Platt's decision to drop the Bay bridge question was not in the best interests of the citizens of Belleville and on that ount, if for nothing else, he is not entitled to a renewal of the confice of the ratepayers an administrator of the city business. While sense or the ratepayers was an administrator of the city business. While be is no doubt a busy man in his profession as a medical man, (foo busy perhaps for efficient municipal service), he has shown, in our opinion, that he is not a good business man of the type necessary for, the progress and prosperity of the city of Belleville in this critical period of Canada's

They seem to fear that my platform of MAKING BELLEVILLE A BIGGER AND BETTER CITY MAY SUCCEED.

You are deeply interested in having industries in the city so that you can be sure of steady employment and keep your families at home as they grow upg. The non-progressive vote of the city will be against me. I ask you to disregard other differences against me. I ask you to disregard other differences and join with me to help nake Belleville a Bigger and Better City for you and your children. This is no pipe-dream, as my opponent declares. THE BATTLE OF THE BALLOTS

THE BATTLE OF THE BALLOTS.

The municipal cannegia, which has developed more or less interest in civic affairs, closed with the weekend and tody the electrors are deciding by their ballots jetus the bitty decire to entrust the administration of the city business with this year. Contests for the mayorally and city council are in progress, with two confidents for mayor and thirteen for the alone seats at the council board. In addition there are contests in two wards for Public School Truster; and the vote on the more, bylass to grant ten thousand dollars stoward a Memoira-Jidome for addiers.

The consert of the monowalty has to readile, excited the most interest.

The contest for the mayoralty has, perhaps, excited the most interest with two well-known and popular citizens in the feld, and questions have arisen which will be decided by the votes of the electrons.

Whatever the decision of the electors may be it is to be hoped that result will be in the best interest of the city and that whoever is electde will endeavor to give an energetic and prograsive administration to the city of Belleville. A new era is dawning for Canada and if Belleville is to take its rightful share in the national progress and expansion ex-pected those who seek civic honors are in duly bound to use their best pected those who s efforts to that end.

The spirit of the trenches is needed to promote the best interest any community—that spirit of brotherhood and unsofishness which interests of any community—that spirit of brotherhood and unsofishness which is de-mands a service all for one and one for all. In the upbuilding of the greater Canada there will be no room for petty jedousies and feuds. Let the dead past bury its deed and let us all join hands and hearts to make a glorious present and prospersors future for Bildeville and all Canada.

SALVATION ARMY

"FIRST TO SERVE LAST TO APPEAL"

If one institution in the Empire was prepared for war, it was the Salvation Army. For fifty-three years it has been relieving distress wherever and whenever the need arose.

The Salvation Army has always been organized on a military basis—inured to hardship, sacrifice and service. It is always in action, day and night.

When the War came, intensifying human suffering and the need for bodily and spiritual help in a thousand ways, the Salvation Army was ready.

The twelfth day of the war found the Salvation Army at work behind the lines in Belgium. It has maintained 197, huts, 96 hostels and 40 rest rooms; 1,200 uniformed workers and 45 ambulances have been in service at the front—in addition to using care of the needs of soldier's families here at host spatialing the widows and orphans, and relieving distress arising from the absence of the soldier head of the family.

THE MUNICIPAL ELECTION

Some one said recently that it would take a charge of dynamic solutions one said recently that it would take a charge of dynamic Bellevilla up, but it, seems from the small proportion of quadectors who carectise their frankshie in municipal elections that it we take something atmosper than T.N.T. to shake the city up to a full being of its full civic responsibility. The elections are not slow in citing citive administration, but many, including the severest critics, or take the armoglate to after themselves are anniablests, seek gade uson ching civic administration, but many, including the severest critics, we not take the trouble to offer themselves as candidates, seek and support and distains whom they deem suitable, or ever go to the polls themselves and as a bad selected with a large proportion of the election abstaining from voting can not be considered fair expressions of plu opinion and is is high time the citizens awake to their civic responsib

One reason given for the small vote polled is the tion was held on a working day instead of a holiday. In many c ities the elections are held on New Year's Day with the result arger vote is polled as workingmen

er, we must deal with conditions as they are in the hope th they will be improved ere another municipal election day rolls around. Dr. Platt was re-elected Mayor of Belleville by a substantial majority. and without analyzing the vote in detail or trying to minimize his victor, it must be conceded as a tribute to his personal popularity. No on bts the doctor's honesty and conscient the best of his ability and the only fault found with a office was that the city's be office was that the city's business was not handled in a busines, particularly in the coal deal and the Bay Bridge quest

ner, particularly in the coal deal and the Bay Bridge question.

Thus I are have seen no financial statement of the city's business
for 1918 and we think the electors are legally entitled to such a statemen
before election day. The details of the citic coal department have no
been given that publicity either, to which the electors are entitled.

Now that the war is over and new conditions have arisen then

Now that the war is over and new conditions have arisen there should be an energetic and businestilic administration of the city busi-ness, and The Intelligencer is prepared to support vigorously all pro-gressive policies on the part of Mayor Platt and his associates at the Council Board; at the same time we will led it our duty to our readers and the electros generally to criticities any learness in citic administration with the best of good feeling to all concerned but in the best interest all

As for the coal deal which has been the subject of dis not surprised that a number of the electors could not bring threshes to believe that civic funds were actually-sent out of the city before the coal had arrived and been inspected. The facts did not come out until the eleventh bour and there was little time to thoroughly look into the matter. Mayor Platt has publicly stated that the money was sent out of the city and two thousand dollars has not been recovered, or value received, although the is positive that the transaction will turn out all right. We bope that his confidence will be justified, but that will not make the transaction with the symbolic particle and the will be publicly and the symbolic particle and the symbolic particle and the symbolic particle and the symbolic particle part he symbolic particle parti action any the less unbusinessike, and the publicity given the matter by The Intelligencer will at least have the good effect of preventing further careless deals of this kind.

Careless seas of tms sund.

Unprejudged electors who gave the matter thought were not pleased at all by this coal transaction and were not slow in expressing them selver, and it is the general opinion that the Mayor majority would have been greater had it not been for his attempted justification of this

It is up to the new Council to straighten out the affairs of the civic fuel department and put it on a businesslike basis or discontinue it alto

As for the Bay Bridge question, in our opinion it is the duty of the new Council to go into this matter very thoroughly and bring it to a
point where the electors can pass upon it. It should not be within the
province of any one man or a dozen to block the question of a free bridge specially when so much progress has already been made and subs ernment assistance promised:

We congratulate the Mayor and Council-elect upon the confidence

shown in their capability and integrity by the electors and The Intelli-gencer will do all in its power to back up all their efforts which will tend to promote the progress and prosperity of the city of Belleville. The to promote the progress and prosperity of the city of Belleville. The Council is practically new, only two members of last year's Council harmonic may be considered and the state of the clean sheet and diese the clay a careful, conomical and progressive administration, the city a careful, conomical and progressive administration.

THE DEFEATED CANDIDATE.

THE DEFEATED CANDIDATE.

W. C. Milek, K.C., is to be congruinated upon his Strong, open and mandy context for the mayorally. He placed all his cards on the control of the we pulsars bare power would make been of great value to Belleville this year, but the electron saon it to give Dr. Platt ranother term in the chair and there is no reason why Mayor Platt can not take up and develop those progressive policies. It is inconscitable that any great number the electrons are opposed to a policy of progress for the city and there is no reason to doubt that the new Council possesses a very prosecular to a reason to doubt that the new Council possesses a very prousive element which will result to the advantage of the city.

If we know Mr. Mikel we are safisfied that defeat will not dis

him and that he will be just as active as a private citizen in promoting the best interests of the city as if he had been elected and that he will continue to advocate and support all progressive measures. ernalistic oyster has come out of its shell, the gag has been we pormanute oyster has come out of its shell, the gag bas teen removed, and the eloquent sincer has been succeeded by another of those wordy Hymns of Hate of The Intelligencer so familiar locally. Can it be concluded that the eloquent silkene of "Strandid-the-fence" helped to stert Dre-Etatt after reading the tirade of Pechandifian abuse against legitimate criticism of public sert ants. List in py wonder that the as-tute doore gagged his journalistic friend?

Rashly also be lifts the lid from the political pot in the statement:

Results above that Mr. Mikel did not get any organized Conservative support. Was the Liberal organization behind Dr. Piati?

The Intelligencer would fain sit at the feet of hits wonderful journal-tolk teaches and learn from his wide experience and ability bow not to condet a surveyapore. Legitimate criticism of the public acts of public condets a surveyapore. Legitimate criticism of the public acts of public

"Scurrility and inane abuse."

"Villifying, apachel billingsgate, bulldozing, Cripple Cteck, Dead A F. Man's Gulch," etc., etc., etc.

We take it that the journalistic straddle-the-fence approves sending funds to unknown firms and perpetuating forever a toll bridge for political purposes.

VALUE NOT COST

It isn't so much a question of what a free bridge will COST in dol-ors and cents as what it is WORTH to Belleville and Prince Edward one and cents as what it is WORTH to Belleville and Prince Edward Country to have a free bridge. There has been county time and money spent by the civic authorities upon the existing bridge structure to know just what it is worth per foot or on bloc. The main point is that a free bridge is absolutely accessary in the best interests of Belleville and Prince Edward County.

THE ROMANCE OF "LITTLE DAVID "

Harold Begbe, describing the historic scenes at the Lord Mayor's hangest, deve this picture of the British Prime Minister's romance:

"His father was a village schoolmaster, who died and left wife and châldern to the mercies of clause. An under nervived that little homely-stamily under his roof, and to earn heread for them worked harder than ever at his cobbler's bench

David stood beside his toiling uncle learning the great organ m "David stood beside his folling uncle leapsfully the great organ movie of the English Biller; the old man would poute in his work; to read a passage, and the boy would repeat it after him. And behind the slope David's mother, in the kilchen, was swriting so to recommise this and that that she might have a slopence over at the end of the week. "That was my mother," for, the core to die or "a never-ending anviety to have wistpence of my uncle's moony saved at the end of each week. It is the life of the Proc."

.. CRISP COMMENT ...

The election was conducted without any casualties, although some catened to become overheated at times,

Mayor Platt said that he felt thankful to The Intelligencer for helping to elect him. The Mayor's gratitude does not seem, however, to be accompanied by the "glad hand" to any great extent.

Some perche seem to think that a politic journal abouth not express its equivalent process of the politic poli

IT PAYS TO ADVERTISE.

To ANY TO ADVERTISE.

The Domission Government has found that it pays to advertise. The side of revaluting campaigns and the Victory Loan floations have in a few part to the extensive advertising organization behind to—in fact it is conceded that these campaigns would have to—in fact it is conceded that these campaigns would have to be a few parts of the the mainspring which produced such wonderful success. In every home that a newspaper entered, and few homes are without their favorite jour-nal, the Victory Loan opportunity was featured insistently and unescapably and with such compelling force that the canvassers, as a rule, had little to do but fill out the application forms.

The Dominion Government, appreciating the investment value of judicious advertising, has enlarged its activities in this givenion, and has

ised a moving picture department to advertise Canada's resources and opportunises loc investment all over the world. Canada's leading industries, aggioutlant, forest, inferiers, mining and mechanics, have been photographed in various stages and will be shown by skilled operativity all parts of the world to illustrate the bounders opportunities by the injectment of capital in this country and the vast extent of rich land all uphroken by the plough available for settlers. The seemic splendors, adjioual parks, wild game and game fish and where they are to be found. Il also be shown on the motion picture screen, and the general resul-ould be to the great advantage of Canada in attracting investors, set-ers, tourist and/sportsmen.

The beginnings of Canada's national highways, connecting up with great Lincoln highway and Sunset Trail, besides other good road sys-ns of the United States are included in the Government's motion pubsees your Once of saids are into cooperation in the Googlement's motion pair. Code program, and ase it is estimated that every pleasure auto party from the third States spends at least Spoo in this country, the thousands of and thourists should alone leave a vata amount of money in this country. The value of motion picture publicity was strikingly shown during the war when German propagands was actively at work in Italy and

France trying to discourage those countries from continuing the war after Russia had collapsed, by intimating that United States participa-tion was only a bouff. Motion pictures were hurriedly taken of the vast tion way and y a bidd. Mr. Johnston stated that pictures would be taken of Belleville and nity, along the new provincial highway to be constructed from Wind-to Quebee. Historic scense pertaining to the United Empire Loyal-the first settlers of this district, would also be featured:

The enterprise of the Government in this very practical advertising apaign is to be highly commended and should be an inspiration to ies and individuals to get out of the rut and adopt progressive minimus and individuals to get out of the rut and adopt progressive ciefs, remembering always he great achievements of newspaper adver-ing which is always available to individual and corporation and com-tility for anyone, with a message. War to Peace

HIS Announcement is made by the Dominion Government—made now because it feels that every Canadian wants to know, and is entitled to know, just what plans it has made to meet the problems that face the country. Only now has it been possible to finish the many plans and policies necessitated.

From day to day the Government will use this space to explain what it is doing to bring back our soldiers, to ensure the comfort of their dependents, to keep the whole nation busy and prosperous.

The problem is to take back our soldiers and war-workers into our social and business life under proper working and living conditions. It has four phases:-

1. To bring the soldiers home.

To fit those who have suffered overseas for useful employment.

To have ready for every soldier and war worker). an opportunity for employment.

4. To assure for them proper living and working conditions.

The plans of the Government are such as will help solve these prob lems. What those plans are will be reported to you in this series of announcements.

Putting Efficiency into Repatriation

HE Repatriation Committee has been formed by the Dominion Government to bring Canada forward to a peace basis with all speed.

It will use the existing machinery and any necessary new machinery.

The Committee consists of Hon. Sir James Lougheed, Minister of Soldiers' Civil Re-Establishment; Hon. N. W. Rowell, President of the Privy Council; Hon. T. A. Crerar, Minister of Agriculture; Hon. G. D. Robertson, Minister of Labor; Hon. Arthur Meighen, Minister of the Interior; Hon. J. A. Calder, Minister of Immigration (Chairman). To assist them, Mr. H. J. Daly has been appointed Director of Repatriation.

This Committee is formed to co-ordinate the work of all those departments of the Government which have to do with the task of bringing back our soldiers to civil life, caring for them and their dependents, providing employment opportunities for soldiers and war-workers, and assuring proper living and working conditions. It also assists the efforts of all organizations and agencies prepared to give aid in the solution of our problems.

HE Committee surveys all plans. THE Committee survey. fusion. It secures expert assistance. It obtains more speedy action, more effective co-operation. While its first consideration is the welfare of the Canadian soldier, its scope embraces the whole community.

The Committee has built up a Repatriation Organization to supplement the work of the existing departments of the Government.

The Committee has secured experts on each problem-military, employment, social, housing, farming, transportation, medical. Nothing is neglected. It invites representatives from all organizations which have interested themselves in the social and economic welfare of the country and the needs of our sol-

The Boys Have Done Their Part

The boys have won a great Victory. Their banners are crowned with glody. But they won't all be home for many weary months yet—perhaps 1900 will see some of them still waiting, and yet—perhaps 1900 will see some of them still waiting, and We me see this thing through to a finish—just as they are doing. "Till the boys (all the boys) come home—that wonpiedge, and while there is a Canadian opnnay in Paris, Boulogne, London, Liverpool, or anywhere else, waiting for transport, Canadian corrops landing in Halifax, Volking, for the property of the solders waiting toward civilian life again—THERE THE SAL-WATION ARM'S LASSIER MUST BE.

THE actual work of bringing back our soldiers to Canada and getting Defence. Complete plans have been made and machinery organized to handle the work. Every detail has been considered. The plan is harmonious and will work smoothly. It is described here. Notice how every contingency has been considered. How the soldier is cared for at every step. How everything is done for his comfort and to inform his waiting relatives and friends.

in this way arrangements are made to handle the men, to care for them, and to find employment for them. Before a man leaves England he is medically examined, his discharge papers and other documents are made out. All delay in Canada over these details is avoided.

On the Stage.

The transport staff check the medical and pay documents. The Y.M.C.A provides recreation and entertainment. Twenty-four hours before arrival in Canada a wireless is sent to the port giving details of any men who are sick and in need of hospital care, and general information that will ensure speedy transport from boat to train.

War-Savings Stamp Buy W-S. S.

War-Savings Stamps may be purchased for \$4.00 each during January at any Money-Order Post Office, Bank, or other place displaying the W.S. S. sign.

WHO?

W-S. S. are purchased by men and women of comfortable means; by housewives and working men; and by children. EVERYONE has an opportunity to share in the high interest the Dominion of Canada pays on an investment in War-Saving Stamps.

The way to "build a bond" with W.S. S. is to buy regularly one a day, or one a week, or one a month—whatever your means will permit.

Those-who cannot invest \$4.00 at a time acquire War-Savings Stamps in exchange for Infit Cards to which are affixed 16 That! Stamps costing 25 cents each.

EVERYONE should buy War-Savings Stamps. In addit to receiving \$5.00 for \$4.00 invested, you know the mon will be used to finance expenditures incurred in the gra-work, the absolutely essential work, of Recompruction.

"First to Serve-Last to Appeal"

The Record of

The Salvation Army In Peace and War

Fifty-three years ago a man so loved the world and his fellow-man that he consecrated his life to the relief of distress and the of the Master.

The world scoffed at his Salvation Army toiling to raise outcasts from the gutter, but General Booth lived to see scorn turn to revenue, and when he died, kings sent their representatives to his funeral.

His greatest memorial is the Salvation Army laboring in 63 countries, speaking 40 languages, serving behind the trenches since the twelfth day of the war, with Huis, Hostels, Rest Rooms, in addition to the work among soldiers' families here at home.

And now comes the crisis. With the homecoming of 300,000 soldiers and all the many problems that involves, the additional strain on the Salvation Army will be enormous. But the Salvation Army faces the mighty task ahead; confident that the necessary funds will be forthcoming.

be forthcoming.

The work the Savation Army will be called upon to do is a vital factor in Reconstruction. Notwithstanding all the work the Government of the undertaken including the granting of pensions, there is still need for the organized effort and the uplifting influence of the Savateon Army, and with confedence, business marky committees as type or carnot export of the

Salvation Army Million Dollar Fund January 19th to 25th

Human Evidences of the Work

Here a returning soldier sees his baby for the first time. In the Salvation Army Maternity Home the mother received the best of care and medical attention. The Salvation Army Lassies found her strugiling along without help. Two lives in all probability saved.

Picture a discharged soldier, out of a job. He is unable to provide maternity attendance for his wife. Imagine his relief when he finds the door of the Salvation Army Maternity Home is open to her.

Who would deny the right of even the "love child" to enter the world surrounded by the loving care of the Salvation Army work-ers, nurses and doctors in the Maternity Home?

Among the Soldiers' Families

A soldier at the front received a letter from the Salvation Army to say that his wife was getting along nicely after a severe illness in which she had been found alone in the house. The letter did not tell how the Salvation Army Lassies turned to, scrubbed fioors, set the house in order, and nursed the woman back to health.

The wife of another solder was utterly unable to keep her home together and look after the six children. The Salvation Army worker found her, too proud to ask for help, but not too proud to accept guidance and assistance with the children when lovingly offered. goussier and anisotance with the entirety when lovingly outered. Many soldiers will find it hard to settle into civilan life. Distress among soldiers' families is reevitable, but while the home can be keep intact there is a solid foundation for the Salvation Army to build upon. The soldier will be helped to find a job. The children will be clothed so that they can go to school. Feed will be farth-cening. And there will be that Cleanliness which is next to Godliness, the spirit which actuates the work.

A The Salvation Army is one of the organizations whose objectives extend beyond material comfort. Everything it does is ultimately directed to the extension of the Kingdom of Christ. directed to use extension on use anagoom wounts.

If approaches try practical problems in a very practical way, and achieves RESULTS. If you approve of its aims—spiritual as well as material—you will gainly give your help to rake the time, without which much suffering must remain unrelieved—suffering among those particularly who direct their three a linest assertion to our consistent and protection.

To Whom Payable

Pensions are not awarded for service.
Broadly speaking, any soldier or sailor
who was disabled during his service is
entitled to a pension—provided medical
treatment fails to restore his full normal capacity.

The amount of the pension is based on the extent of the physical handicap he has suffered.

Keep Them Smiling

Soldiers Home Coming Campaign

The "Welcome" sign still hangs high on the doors of the Salvation Army Houtels. 'Heigt them to keep it there! While our soldjers have need of the comforts—spiritud as well as bodity—DON'T shut the doors in the boys fares—Keep them smiling!

The Salvation Army appeals for a Million Dollars for the boff who won the Victory. This is the first time the Salvation Army has made a general appeal for its work. We urge you now, for the salve of the soldiers, and as a VITAL factor in the solution of Canada's Reconstruction problem, with the Homecoming of her boys, to give and to give liberally!

Our men in Khaki may not all be home for another year. While there is a company of Canadians in uniform over there or over HERE, there is work for the Salvation Army Lassie.

The weary waiting and the relaxed discipline spell dangers that MUST be guarded against. A happy smile and a comfortable body help to keep trouble at a distance. Do not let the Hostels aim for lack of funds!

The Salvation Army Million Dollar Fund

January 19th to 25th

"FIRST TO SERVE-LAST TO APPEAL"

A WORD ABOUT THE HOSTELS! Have you ever been inside a Salvation Army Hostel? If not, ask a returned man about the Hostels in Paris, London, Toronto, Hamilton, or any others that he has stayed in over HERE.

Let HIM tell you about the REAL beds, the home cooking, the fried eggs, and hot coffee—and hot baths. If he knows you very well, he may give you a hint about the spiritual comfort the Salvation Atmy Lassies give these men far from home and all it means?

Keep them smiling! We will not turn the men adrift after they have won so glorious a Victory! We will redeem our PLEDGE—"We will keep the home fires burning, till the boys come home"!

Next week the Campaign will be on! Help twice! First, by your liberal contribution—To whom much is given, of him much is required. "Scond, urge upon your friends and neighbors the pressing needs of the soldiers, right up to the time they are safely settled once more into civilian lite.

What is \$4.00 today? It is a question of purchasing power. What will \$4.00 buy at present prices? Just over one third of a barrel of four. Before the war flour was selling at \$5.00 a barrel.

No one can say just how much more the purchasing power of the dollar will be in 1924, but you can see that the four dollars you put into War-Savings Stainps now, will grow, not only in number, but in value.

Your investment in War-Savings Stamps is like the snowball rolling down a slope. You give it a start and it grows by itself!

Your four dollars becomes five, and every dollar will be worth more.

Whether you buy one W-S.S. each day, or each week, or each month, or only two or three in a year, your money is growing, growing, GROW-ING all the time.

Those who cannot invest \$4.00 at a time, can buy Thrift Stamps at 25 cents each Sixteen of these on a Thrift Card will be accepted at \$4.00 in exchange for a W-S.S.

Hostels are closed for lack of funds? WHERE? This week decides. Consider carefully, for if THOSE doors slam in the faces of our soldiers, the echo will go ringing through the years to come. Canada will regret. You hold the KEY!

Left us state the case quite plainly. The next twelve months are critical ones in the careers of our citizen, soldiers. They will have a great deal of time on their hands and it is for you to make it helpful and enjoyable. They have come to know the Salvation. Army over there, and realise what it means. Give him a chance, and the soldier will turn to the Hostel, and all will be well!

One Employment Agency for All Canada

THE Dominion and Provincial Governments are co-operating to distribute employment quickly and fairly. Employment Offices are being set up throughout Canada—a single, complete chain from East to West.

In all, some 60 Employment Offices are being established. They will be pecated in all centres of 10,000 people and over—and wherever the need for them exists. One-third are already in operation.

Through these Government Employment Offices, all persons in need of comployment, both male and female, will secure such positions as are available.

Through this same source an employer's particular needs will be promptly filled.

Indeed, the service rendered by these Government Employment Offices will be such as to warrant the heartiest cooperation and support on the part of employers of labor.

They will endeavor to supply only such help as an employer can confidently take on—the right man for the right

Thus, to the small employer of labor, they will take the place of the Employment manager. To the large employer of labor they will be of appreciable

The service of the Employment Offices will be given both to employers and to those who seek employment entirely without charge.

Hoto They Work.

A superintendent is in charge of each local Employment Office.

Inside the office he has interviewers, to Inside the omice he has interviewers, to confer with those seeking employment and to direct them to positions. In the larger cities he also has canvassers or salesmen to call on the employers and ahow them the value of the services rendered by the Employment Office.

In this way the work-seeker and the work-giver are quickly brought together. Every effort is made to secure up-to-date, business-like offices, conveniently

APPRECIATED BY THE TROOPS. one paper very tensely puts it that the Salvation Army is the one single organization operating in the war aroon that has never been criti-cized. Another grouped it with the British Navy as one of the two war auxiliaries which had emerged from the war without the slightest criti-cism. This is the testimory as well of thousands of the soldier boys who have come hack or who have written home about the help given at one time or another by the Salvation Army at the front,

Irvia S. Cobb, the noted writer, said he never met a soldier, from gadier to private, who did not speak in fervent terms of gratitude for a gid rendered by the Salvation Army so unestentatiously, and yet so very effectively.

Coming Campaign

Endorsed by the Highest Civil and Military Authorities

The Campaign that is being made on behalf of the Salvation Army to finance its Home and Overseas Work among Homecoming Soldiers and their families, receives the support and endorsement of all who foresee the tremendous problems arising out-of, the Repartiation.

The Salvation Army Million Dollar Fund THIS WEEK

KING GEORGE: "Have for many years watched with deep interest your work for the people, especially the less fortunate citizens of the Empire. Think the work is carried on with great ability and unselfish zeal. Trust it will go forward in all parts of the world, and that the blessing of God will continue to rest upon you."

DUKE OF DEVONSHIRE:

"Best wishes for the success of your Red Shield Drive for \$1,000,000 for Canadian Home and Overseas Work of the Salvation Army. I hope this "drive" will be generously supported by the people of Canada."

SIR ROBERT BORDEN:

"Very glad to send my best wishes for every success in the endeavor of the Salvation Army to raise a million dollars for its Canadian home and overseas work. "The efforts of the Salvation Army in aid of the National purpose is worthy of the highest appreciation, and I confidently hope that such support will be given as is necessary to sustain your effort to the end."

FIELD MARSHAL SIR DOUGLAS HAIG:

"Glad of opportunity of congratulating the Salvation Army on service its representatives have rendered during past year to British Armies in France." HON. N. W. ROWELL:

"I wish you every success in your Demobilization and Reconstruction Million Dollar Campaign. The War Work of the Salvation Army is deserving of support of all good citizens. I heard nothing but appreciation of it when overseas."

PRESIDENT WILSON: "Very much interested to hear of the campaign the Salvation Army has undertaken to support its war activities, and want to take the opportunity to express my admiration for the work that it had done and my sincere hope that it may be fully sustained."

THEODORE ROOSEVELT: "There are few thinkers nowadays who do not recog-nize in the Salvation Army an invaluable social asset a force for good, who work effectively in those dark regions where, save for these forces, only evil is power-

MUSKRAT COATS

We advise those intending to purchase, not to delay in doing so. PRICES WILL BE HIGHER next year. The highest price paid for muskrats last year was \$1.30, already the excessive price of \$2.00 is being offered for this season's rats.

From a comparison of the above prices it will be easily seen that a 50 to 75 p. c. increase on above pre-sent prices on the finished article is assured. THERE-FORE BUY NOW.

As the Boys Come Home

But what of the men who arrive at the same time with NO friend to greet them, no home to welcome them, no job to turn to? There's a problem you must face—or let the Salvation Army face it for you.

SALVATION ARMY MILLION DOLLAR FUND THIS WEEK

The Salvation Army fills the breach here at home, just as it did, and still does, over there! It holds out open arms to the soldiers, welcomes them, feeds them, furnishes clean beds and hot baths, comforts for body and soul, and stands by a man and his family until he is on his feet.

Canada must solve the problem of repatri-ating her soldier sons who have done their

part so valiantly. Apart from all obvious considerations of gratitude, it will pay us in dollars and cents to let the soldiers see in dollars and cents to let the soldiers see our men now then put the construction of the soldiers are now the passed, would be to earn their just reproaches. Look at this appeal from all sides; ask any returned man about the work of the Salvation Army. Then help to make this campaign the success it deserves to be.

"They loved not their lives to the death"

Who provides beds and meals for soldiers close to Railway Stations? Who mended the soldiers' clothes over there? Who entertained bundreds of thousands of soldiers and sailors daily at the Huts! Who belped to feep the soldiers' homes here intact?

Who keeps in touch with the Homecoming soldier?
Who provides the Emergency Homes and the
Entermity Homes?
Who has cared for thousands of war widows?
THE SALVATION ARMY
Shall their work stop for lack of funds?

I wish I could tell you what entire contentment there is in owning a New Edison.

We put on a piano selection by the celebrated Andre Benoist. It is Godard's "Second Mazurka." What we hear—those mighty chords, those runs of stirring crescendo, those soothing modulated passages—ah! what we hear is not a mere resemblance, not an imitation of piano tone. It is as much Benoist and his marvelous playing as though the great French virtuoso was sitting there at our own piano. Only this is Music. There is nothing more in music to wish for. There is nothing more to be obtained.

Hear the New Edison yourself. Its "Re-creation" of an instrument or the human voice is really marvelous. Has permanent diamond point, noincedles to change. Plays all makes of records. Easy terms if you wish.

MUSKRAT COATS

We advise those intending to purchase, not to delay in doing so. PRICES WILL BE HIGHER next year. The highest price paid for muskrats last year was \$1.30, already the excessive price of \$2.00 is being offered for this season's rats.

From a comparison of the above prices it will be easily seen that a 50 to 75 p. c. increase on above pre-sent prices on the finished article is assured. THERE-FORE BUY NOW.

The Way To Insure Perfect Health

Every person old enough to understand realizes that the only way to insure perfect health is by keeping all waste and poison expelled from the system.

In order to rid the body of these constantly forming impurities Nature has provided two sets of vital organs, namely, the Kidneys and the Bowels.

Almost every person takes precautions to have well-regulated Bowels, and does nothing for the Kidneys, There's where the trouble commences, for your Kidneys must be kept freed the same as the Bowels if you expect them to perform their proper function continuously. on continuously.

It a fact and one well worth taking to heart, for neglected, con-grated Kidneys are the cause of intense suffering followed by diseases such as Rheumatism, Sciatica, Lumbago, etc.

Think of your Kidneys and use Gin Pills the same as you would cathartics. They cannot harm you and will relieve and remedy Kidney or Bladder disorders.

Making the Soldier A Civilian

EARLY in the war, the Tovernment realised that the returned soldier would need one of three things.

(1) If he was ill, he would want to be made well.

(2) If he was so disabled by service that he could not follow his old occupation he would want an opportunity to recover His power to "make good" as a civilian.

(3) If he was fit, he would want to be put into touch with employment opportunities.

To help in this three-fold service the Department of Soldiers' Civil Re-Establishment was organized.

The Medical Branch.

The Medical Branch of this Depart-ment gives the special after-care that sol-diers who have suffered through war service need.

On his return to Canada the invalided or wounded soldier is treated in military hospitals. If the Medical Board decides that his case requires extended treatment in certain diseases, he is discharged from the army and comes under the care of this Department.

The Medical Branch then provides free medical and surgical treatment: —free artificial limbs and special boots

for deformed feet: -free surgical appliances, eyeglasses

ree dental treatment

At present this service is available not only on the soldier's discharge from the army, but whenever he becomes ill again on account of disease or wounds due to war service.

The Vocational "Re-Training" Branch.

Some soldiers have so suffered on war service that they are prevented from working at the trade or occupation they followed before enlisting. This branch of the Department arranges for such men

This branch of the Department beet opposited recently to give special service to the demobilized soldier.

This branch first comes into contact with the soldier in France and England, there it finds out the soldier's perious flers in England first in the soldier in France and England, flers it finds out the soldier's perious feet to take up, and the locality in which intends to settle.

Representatives of the Department Representatives of the Department soldiers before they end wides them, and to give them information, and to give them information, and to give them information through out Canada and by means of it the returned soldier will be placed in touch the Government Employment Offices,

with Government Employment Offices, where details of existing opportunities for employment are available.

The representatives of the Department will themselves be returned men—those who can appreciate the soldier's problem. The work these branches do will be described more fully in later announcements.

MUSKRAT COATS

We advise those intending to purchase, not to delay in doing so. PRICES WILL BE HIGHER next year. The highest price paid for muskrats last year was \$1.30, al-ready the excessive price of \$2.00 is being offered for this season's rats.

From a comparison of the above prices it will be easily seen that a 50 to 75 p. c. increase on above present prices on the finished article is assured. THERE-FORE BUY NOW.

CIVIC FUEL DEPARTMENT.

CIVIC FUEL DEPARTMENT,

The report of the operations of the civic fuel department as presented at last night's Council meeting is anything but satisfactory. Only an
obstract of receipts and expenditure is given, showing a loss of \$0.01-0,
which the additional summed \$5.000,000 outstanding, which is described as a
remittance to Canada Coal Supply on account. Just the bare figures
are published without any explanation which might enlightern ratespayers familiar with the fuel business.

not tamiliar with the fuel business.

In justice to all concerned a complete report should be prepublished clearing up particularly the question of viach advance ing to whom made, upon what security and rate of interest all city on these advances pending receipt of coal; also the record of by the city, purchasers and price paid.

The civic fuel committee of last year are entitled to full e

The civic fuel committee of last year are entitled to full credit for their efforts to keep the price of fuel within reasonable limis, but in just-ice to themselves should be the first to insist upon the ratepayers being furnished with a report of their deciling so complete that there will be no further occasion for criticism.

The report, mengre as it is, shows at least that the civic fuel depart-ment has been run at a financial loss and this last inwrits the close con-

sideration of the present Council, which although not responsible for acts of last year's Council, will be held responsible for the businesslike administration of all e'vic departments this year.

This service is provided by the Medical Branch of the Department of Soldiers' Civil Re-Establishment.

An ex-soldier or ex-sailor who has a recurrence of a war disability should, if he is not too ill, go at once to the local medical officer of this Department.

(If he is too ill he should have that medical officer notified at once.

Should-he be taken ill in a place where there is no representative of the Department, he should call in a local physician to give him the necessary immediate treatment and ask him to communicate immediately all details of the case to the nearest medical officer of the Department

The name of the authorized medical representative of this Department for each locality is given along-

Treatment at the expense of this Department can only be secured through these representatives. The Department cannot pay any bills for treatment which have not been authorized by the Department.

If the medical officers recommend it, may is given to patients, and allowances are granted to their dependents by the Department, during the period of treatment.

The established scale of pay and allowances that may be granted depends upon the extent to which the treatment recommended by the medical officer of the epartment prevents the patient from doing his

Arrangements for special care of patients of the Department have been made with hospitals in all the larger towns and cities from coast to coast.

Sanatoria for treating tuberculosis under most favorable inditions are operated in every Province under the pirect supervision of the Department.

Prohibition in Canada

An Open Letter to the People of Canada

THIS STATEMENT is being published in the Daily Papers in every Province of Canada in order to call attention to the following facts:

Every Province in Canada now has a Temperance Law in force with the exception of Quebec. On May first, 1919, the Quebec Temperance First fact: Law will come into force.

Second fact: The Dominion Government passed Legislation under the powers granted in "The War Measures Act," which prohibited for the period of the war and twelve months thereafter, Importation, Manufacture and Interprovincial Shipment of liquor for drinking purposes. This Legislation is necessary to make effective that of the Provinces.

Third fact: The people of Canada want this Legislation communed in effect until

the Citizens of Canada, including all the soldiers, shall have had an opportunity to vote on the question of making it permanent.

Fourth fact: There is an insidious and far-reaching propa ganda now being carried on which aims to discredit the Prohibitory Laws and restore liquordrinking for the personal profit of the Liquor-Seller,

Fifth fact: The requisite number of State Leasantures in the United States having adopted the Prohibition Amendment, Canada must aret in harmony with it or become the dumping ground for liquor and its unfortunate

Who Want **Prohibition?**

The Business men and Industrial leaders whom you know.

2. The working men and working women whom 3. The Mothers, Wives and Children whom you

 The Soldier Citizens of Canada whom you know. 5. The farmers whom you know.

We know that

Every Church and Religious Denomination in Canada has pronounced in favor of Prohibition through its Executive Boards and Church Leaders.
 Practically all School-teachers, Doctors, Public Health Officers, City Relief Officers and Social Workers in Canada are in favor of Publishibition.

in Canada are in Javor of Epartoniuon.

3. The Provincial Governments, the Courts and the Police have learned that Prohibition reduces crime and disorder and promotes Peace and Prosperity.

Some Significant Contrasts

The Liquor People are looking for immense profits. WE HAVE NO SELFISH INTEREST TO SERVE.

The liquor Interests hide behind indefinite names and work by underground methods.

WE SIGN OUR OWN STATEMENTS AND
WORK IN THE OPEN.

They hope to win by a Lobby. WE WANT THE PEOPLE TO DECIDE.

They are reactionaries.
WE ARE IN THE PATHS OF HUMAN PROGRESS.

They are circulating throughout the country a prescription for infla-enza, that is purported to come from the world celebrated Mayo Clinic, Rochester, Minnesota.

Here is what Dr. C. H. Maro

says:

"The prescription which is alleged to have been written by us is a fake." Alcohol or whiskey have no place in the treatment of influenza."

Temperance Platform

The Dominion Prohibition Committee are asking:

1. That the Prime Minister and Government of Canada be requested to take the steps necessary to continue in effect the provisions of the Order-lin-Council of March 11th, 1918, (P.C. 89) by having the same embodied in Le

2. That the legislation so enacted be continued in effect until such time as a vote of the electors of the Dominion of Canada shall have been taken on the question of its continu-ance or dis-continuance.

3. That the vote on this question be taken at a date to be fixed by the Government of Canada at least six months prior to the day of voting and with due respect, to the restoration to civil life in Canada of the Canada

Platform of the Linuor People

We do not want the Bar back but we want the Interprovincial Traffic restored

The Brewers say:

We want the percentage of alcohol in Beer increased from 21.2% to 5% or 6% or even 16%.

The old time Hotel Keeper says:

We cannot run a Hotel without a Bar and if we cannot sell whiskey we must at least have a "Beer and Willow license."

Methods of the Liquor People:

They have already sent men and literature over-eas in the vain hope of prejudicing many of the anadian Soldiers.

They are behind a propaganda in the ranks of Labor that seeks to show that Prohibition is generally opposed by working people. This is a slander on Labor.

3. There are appearing letters signed "Wounded Soldier" or "Returned Soldier" or "Church Worker" or "Lover of Liberty" or "Soldier" s Wife or "Officer's Wife own some cases with the state of the some cases such letters are hade up and soldiers or others are asked to sign—sometimes for a consideration.

False stories of suffering for lack of liquor for the sick are circulated although the Law provides fully for Doctors' prescriptions.

5. Efforts are being made to discredit Administrators of the Liquor Laws and even Members of Governments who are known to be in favor of Prohibition.

The Liquor cause is being upheld by insidious advertisements, news despatches, articles and moving picture films.

7. Drafts of bills acceptable to the Liquor Interests are being urged on the Governments.

8. The Liquor Interests are work-ing behind the scenes in the political parties, and by underground methods, to discredit and oust from office any public man who is an outspoken prohibitionist. Watch for the evi-dence of this and prevent the success of their schemes.

What You Can Do to Help the Cause

The Dominion Parliament must consider the question of Temperance Legislation in some form at the next session. We are asking Technicent to embody in an Act, the Provi-sions of Orders-in-Council now in force with suitable provision for its submission to the neonle.

As a Citizen of Canada write to your alember of Parllament orging his active co-operation with the Government in carrying our this policy. Fut your kines is your exa-way, and send your letter to your Member's home address as soon as you read this Statement. Members of Parliament and Nationar Policies are influenced by Public Opinion. Your action will be one of the ways of indicating what the people think.

We desire to warn our friends against any wakening of usefuling at this critical moment. The linear interests are at verk (**) over the size (**) the size (**) the hipposite that there is a general dissuffaction with scaling low and are using what is done in our Province to form a great in the others. From the time continues of Problishion do all the egitating. If any information comes to your notice that the Central Committee should have, write at once to D. B. Such was a motion moved by Alderman Woodley and seconded by Alderman Hunter and approved by the City Council at the regular

The Council for 1919 has started out to do things on a life Council for 1919 has started out to do things on a life the proper way is to secure The Cyuncil for 1919 has started out to do things on a businessible basis and evidently realizes that the proper-way is to secure all inform-ation possible upon all unfinished business handed over by last year's Council. All documents and correspondence pertaining to the fuel com-mittee are ordered to be placed on file in the City Clerk's office so as to be readily accessible to the Councillors, and the coal and wood now of hand is to be priced and sold after due publicity is given by advertise

ments in the local papers so that all citizens will have full knowledge and equal opporturity to purchase if they so desire. By placing all the documents and correspondence relating to the operations of the civic fuel department on file had readily accessible a-concillors and ratepayers alike the strong light of publicity will dispel any air of mystery or real or fancied secreey which may have hung over the civic fuel department and be the best possible answer to any adver-

In a stanmary of recepts and disburrements presented to the City Council and published yesterday's is not very enlightening to the average ratepayer and reeds further explanation. The inventory of stock on hand, for instance, gives one hundred and forty-one tons of buckwork coal at a value, of 87,60 per ton. We are informed by a coal dealer that he sells this kind of coal at \$5.50 per ton. If this is the case then the the of buckwheat coal for inventory purposes is not \$7.00 a ton, but is than \$5.50, or the price at which it can be laid down here for. It is not to be supposed that the dealer is selling below cost. If the buckwheat coal on hand has been mistakenly overvalued by over two dollars a tor then the loss to the city according to the statement presented would be still further increased by over two hundred and fifty dollars. The state mits a loss of \$401.48.

Then the matter of security and litterest upon cash advances should also be explained as the statement shows an ouistanding amount of \$2,003.00 for which value has not been received as yet.

There is no question of any verociding on the part of anyons de-cribed but what is questioned is the methode employed and full gibblicity carbid but what is questioned is the methode employed and full gibblicity and under the properties of the properties of the whether businessible methods used to the properties of the properties of the properties of gage in business hitherer reserved exclusively for private enterprise.

A NATIONAL VISION NEEDED.

Western agreeatural interests demand radical changes in the tartit and from a purely sectional standpoint be western farmer without doubt has good ground for argument. Just at this time/ however, the tarifi, always a disturbing factor in its effect upon business in general, should be dealt with in a national way. The agricultural interests are interesting to the proposed of the p ltural interests demand radical changes in the tarit women with the manufacturing interests to a large degree and the proprity of one hinges largely on the property of the other, Any takers, property of the other, Any takers, and the control of the contr loyed in factories will call a halt to expansion plans and the resul will be disastrous to the nation as a whole.

The great duty of the hour is to cultivate a national vision and pe

The Tie That Binds

THE influence of music in the home cannot be overestimated. Think! Wouldn't every member of the family insist on being home if Alice Neilson was going to sing in your parlor next Wednesday? The most important event you can think of wouldn't keep their eway.

Alice Neilson will visit your home—not once, but every evening on your Columbia. She, or some other famous singer, will sing your favorities ongs, but that sin't all. Charlie may be found of Crativis Broit. Many may here a friend in Fance and long for military Music. Itile. Ellis would fat from 'Little Red Riding Holes.' You can please them all. The long winter evenings have no dread for the family which owns

The LINDSAY News Bulletin

Many people who, not being highly proficient in plans playing, get a great deal of enjoyment out of their player-piano, will be pleased to learn that a new attachment has beer invented which does the work of pedalling. This invention called the Rotora, and can be called the Rotora, and can be at-tached to any make or style of player-piano wherever electric current is available. It is a mar-vellously aimple thing and needs but to be seen to be appreciated. If interested write for further particulars.

Richard Adarich, in the New York Times, says the following about Ethel Leginuka:—"There is a burning intensity in her style, a berrowseep, the playing it in a berrowseep, the playing it in a berrowseep, the playing it in playing the playing the playing the yell it and be regulately extrained ed and is not lacking in artistic ed and is not lacking in artistic ed and is not lacking in artistic ed and its not lacking in artistic playing the playing the playing the beauty whether it is in passages of delicacy or of power, or in finely differentiated graduations finely differentiated graduations.
